

Community Strategic Plan

Strategic Vision

The Township of Leeds and the Thousand Islands is and will continue to be a friendly and historic rural community surrounded in natural beauty where the economy, nature and our people flourish together

Sustaining the Natural Environment

The natural environment – the rivers, lakes, streams, islands and natural landscapes – has been identified as one of the most important contributing factors to the amazing quality of life experienced by Leeds and the Thousand Islands residents. It is critical that the natural environment be protected for the enjoyment of future generations, but also is accessible for all to experience.

Community Development

People choose to live in Leeds and the Thousand Islands because of the connection they feel with their community. Making improvements to the community, both from a physical, and social and sustainable perspective, will ensure Leeds and the Thousand Islands remains a community where people choose to live.

Creating a more Sustainable Economy

From a Township perspective, Economic Sustainability is about the creation of a business friendly environment that allows businesses to thrive and for investment opportunities to exist. For Leeds and the Thousand Islands, this includes small business development, tourism and being ready when an investment opportunity comes to the Township.
