# Staff Report

---

**Report To:** Council  
**Meeting Date:** December 12, 2022  
**Prepared By:** Megan Shannon, Clerk  
**Subject:** Administration Report - SR-148-22 - 2022 Municipal and School Board Elections Statistics

---

## **Recommendation**

None. Administration Report - SR-148-22 - 2022 Municipal and School Board Elections Statistics is provided for information.

## **Background**

The purpose of this report is to present an election statistics document to provide insight into the election and the voting methods used.

## **Analysis**

Attached hereto as Appendix "A" is the elections statistics document.

Staff have compiled information from Intelivote Systems Inc. to form an election statistics document to provide insight into the election and the voting methods used. The document includes the following statistics:

- Election Statistics: General statistics for the election;
- Participation Statistics: A breakdown of participation percentages for each race;
- Voting Time Breakdown: A breakdown of voting activity by date and time;
- Internet Voting Sessions: A breakdown of what devices electors used to vote via internet. A "session" is when an elector successfully inputs their PIN in the system. The elector doesn't have to successfully vote in order to create a session. For example, one elector could create 2 voting sessions. Thus, the number of internet sessions will be higher than the amount of internet votes.; and

- Age: A breakdown of electors by age and voting method.

The information provided by Intelivote Systems Inc. does not reflect the following information from revisions made to the Voter's List:

- The number of eligible electors in the system was 10,221 and the participation rate was 30.3% at 8:00 pm on Monday, October 24th. The number of eligible electors in the system decreased to 10,177 and the participation rate increased due to the 44 returned Voter Information Letters received prior to receiving the elections statistics document.

The information provided by Intelivote Systems Inc. does not reflect the following information from the tabulators:

- The number of electors who casted at least one ballot was 3,099 and the number of voters who voted by paper was 652. These numbers were altered due to clerical errors made in the system when voters voted by paper. The elections results report from the tabulators reflected the number of voters who voted by paper.; and
- The number of spoiled ballots by paper for each Councillor - Ward race was:
  - Councillor - Ward 1: 10
  - Councillor - Ward 2: 11
  - Councillor - Ward 3: 8

### **Alternatives**

None.

### **Financial Implications**

None.

### **Policy Alignment**

The elections statistics document supports Pillar #1: Delivering Effective and Accountable Governance of the Strategic Plan.

### **Conclusion**

The 2022 Municipal and School Board Elections Statistics from Intelivote Systems Inc. will be posted on the Township website.
